

Application Guidelines for 2023 Master's Program

Graduate School of Design

Kyushu University

Admission by General Entrance Examination (April or October 2023 Admission)

Application Period

- | | |
|--|---|
| • If preliminary screening of application qualifications is not required | Monday, August 1 – Thursday, August 4, 2022 |
| • If preliminary screening of application qualifications is required | Monday, July 4 – Thursday, July 7, 2022 |
| • If special assistance and requirements are needed for taking the examination | By Thursday, July 7, 2022 |
| Date of Examination | Friday, September 2, 2022 |

The other information about the entrance examination will be posted at the Multi-Purpose Building on Thursday, September 1, 2022.

* The TOEFL ITP test will be held on Saturday, May 14, 2022.

To take the test, you need to apply in advance.

Application period for TOEFL ITP test: Monday, April 11, 2022 - Monday, April 18, 2022

Please refer to page 20 for more details about the application.

- Depending on the state of Covid-19 infections, the selection methods may be modified.
- Latest updates of the application and selection methods will be announced on the website of the Graduate School of Design, Kyushu University.

Website of Graduate School of Design, Kyushu University:

<https://www.design.kyushu-u.ac.jp/en/home/>

All times listed in the Application Guidelines are Japan Standard Time (JST, UTC+9).

I Admission Policy of the Department and Courses

The Master's program under the philosophy of "humanization of technology" aims to develop world-class designers who create innovative solutions to enrich our lives, and at the same time, acquire leadership skills to empower them to succeed in the future. The Graduate School of Design is looking for applicants who have the following qualities:

- Have knowledge encompassing the humanities, society, and nature; the ability to think logically; and have artistic sensitivity in order to acquire a high level of specialized knowledge related to design, to discover and raise social issues, and to acquire the ability to achieve resolutions and put them into practice.
- Have curiosity and consideration for diversity and an international viewpoint, as well as tolerance and the flexibility necessary to acquire the ability to solve problems from a broad perspective, while cooperating and having an interdisciplinary approach with people who have different expertise, values and cultures.
- Have the ability to analyze oneself and society, flexible thinking and responsiveness, creative ambition, and the ability to take action necessary to effectively utilize one's own strengths, experience, and specialized knowledge to develop and lead in new design fields.
- In addition to the above, the following students are sought for each course.

■ Strategic Design Course

- Have an interest in the long-term visions of society and culture.
- Have the ability to think creatively based on an understanding of people and the environment.
- Have empathy for diverse stakeholders and a desire to promote co-create value.
- Have an interest in collaborating with individuals who can implement value proposals in society.
- Have communication skills that enable one to be active on a global scale.

■ Environmental Design Course

- Have a strong desire to make one's own judgments about how to propose solutions to diversifying environmental issues, taking into account the vast size and historical aspects of spaces.
- Have the sufficient specialized knowledge and academic abilities necessary to acquire advanced expertise in architecture, urban design, regional design, and landscape design,
- Have the ability to observe the environment and objects in a specialized manner and creative sensitivity necessary to acquire the ability to closely analyze and understand the environment, social research skills, scientific thinking skills, expressive skills, and analytical skills.

■ Human Life Design and Science Course

- Have an interest in human beings in terms of how they live and have a foundation for elucidating their physiological, structural, behavioral, and psychological characteristics.
- Have an interest in human sensitivity (*kansei*) and creativity, and an interest in the visualization of the processes of these senses and design applications.

- Have scientific and engineering knowledge to make people's lives safe, secure, and appealing.
- Have a desire to solve various social problems and create value based on the characteristics of human beings in terms of how they live their lives and the latest science and technology.

■ Design Futures Course

- Have a desire to live a fulfilling life together with other people, animals and plants, past and future generations that have previously been difficult to examine.
- In order to create devices, works, systems, technologies, and ways of thinking for the field of Design Futures, students should have the desire to open up new design possibilities by explaining their own pursuits to others in an understandable manner and by communicating effectively with knowledge and skills in other fields, while building on the basic abilities they developed individually in their undergraduate courses.
- For the field of Design Futures, students should have essential knowledge in one of the following areas from the specialized areas: Mathematics, Biology and Computer Science, Art and Design Theory, or Culture and Environment, and possess the ability to be analytical, creative, and communicative.

■ Media Design Course

- People who conduct research and creative practice of design and artistic expression related to media and communication. Advanced creators with an aesthetic sensibility backed by logical thinking skills, and people who are oriented toward researching art and culture.
- Have advanced expressive abilities in design and content creation related to media and communication.
- Have the abilities to conduct media technology research and create contents, which are based on cutting-edge media design.
- Have knowledge of design related to media and communication, knowledge of mathematical science, and the ability to conduct advanced research on human psychology.

■ Acoustic Design Course

- Understand the phenomena and principles of the fundamentals of acoustics, and have the ability to explain the phenomena and presentations from the perspectives of natural science and humanities using acoustics theory.
- Have acoustic sensitivity necessary for a specialist in acoustic design, as well as specialized knowledge in representative fields related to acoustics such as acoustic culture, acoustic environment engineering, and acoustic information science.
- Have the ability to integrate and apply the above to solve various problems related to acoustic design.
- Have the ability to open up new fields of art, science and engineering related to acoustics through multifaceted approaches to design targets from perspectives of acoustics-related culture, environment, and information.

II Application Qualifications

1 April 2023 Admission

- (1) Applicants who have graduated from universities or colleges set forth in Article 83 of the School Education Act or are expected to graduate from such universities or colleges by March 31, 2023.
- (2) Applicants who have bachelor's degrees awarded pursuant to the regulations of section 7, Article 104 of the School Education Act or are expected to be awarded bachelor's degrees by March 31, 2023.
- (3) Applicants who have completed 16 years of formal education in their home countries or are expected to complete their education by March 31, 2023.
- (4) Applicants who have completed 16 years of formal education in foreign countries by taking correspondence courses offered in Japan or are expected to complete the aforementioned by March 31, 2023.
- (5) Applicants who have completed formal education at foreign educational institutions in Japan which are positioned by the school system of such foreign countries as facilities that have curricula equivalent to universities (those who completed the education must be regarded to have completed 16 years of formal education in those countries) and specified as such institutions by the Minister of Education, Culture, Sports, Science and Technology or are expected to complete the education by March 31, 2023.
- (6) Applicants who have been awarded or are expected to be awarded by March 31, 2023 degrees equivalent to bachelor's degrees by completing the courses with the period for completion of three years or more at foreign universities or foreign schools (assessed by the foreign governments or accreditation organizations of such countries or specified as equivalent to such educational institutions by the Minister of Education, Culture, Sports, Science and Technology. (The completion of the courses includes completion of the courses in Japan through correspondence courses provided by foreign educational institutions and completion of formal education at foreign educational institutions in Japan which are positioned by the school system of such foreign countries as facilities that have curricula equivalent to universities and specified as such institutions by the Minister of Education, Culture, Sports, Science and Technology as prescribed in the preceding item.)
- (7) Applicants who have completed specialist courses of colleges of technology (only those courses which satisfy all the requirements set by the Minister of Education, Culture, Sports, Science and Technology including the period for completion being four years or more) after the date designated by the Minister of Education, Culture, Sports, Science and Technology or are expected to complete such courses by March 31, 2023.
- (8) Applicants who are designated by the Minister of Education, Culture, Sports, Science and Technology (under the Public Notice of the Ministry of Education No. 5 of 1953).
- (9) Applicants who were admitted to graduate schools under section 2, Article 102 of the School Education Act and are recognized by the Graduate School of Design to have appropriate

academic abilities for receiving education provided in the graduate school.

- (10) Applicants who are recognized to have academic abilities equivalent to those who graduated from universities by means of a qualification screening conducted by the Graduate School of Design and are at least 22 years of age as of April 1, 2023.
- (11) Students who fall under any of the following and are recognized as having earned the credits specified by the Graduate School of Design with excellent grades.
 - a. Applicants who have been enrolled for at least three years at the universities or colleges set forth in Article 83 of the School Education Act by March 31, 2023.
 - b. Applicants who have completed 15 years of formal education in foreign countries.
 - c. Applicants who have completed 15 years of formal education in foreign countries by taking correspondence courses offered in Japan.
 - d. Applicants who have completed formal education at foreign educational institutions in Japan which are positioned by the school system of such foreign countries as facilities that have curricula equivalent to universities (those who completed the education must be regarded to have completed 15 years of formal education in those countries) and specified as such institutions by the Minister of Education, Culture, Sports, Science and Technology.

2 October 2023 Admission

- (1) Applicants who have graduated from universities or colleges set forth in Article 83 of the School Education Act or are expected to graduate from such universities or colleges by September 30, 2023.
- (2) Applicants who have bachelor's degrees awarded pursuant to the regulations of section 7, Article 104 of the School Education Act or are expected to be awarded bachelor's degrees by September 30, 2023.
- (3) Applicants who have completed 16 years of formal education in their home countries or are expected to complete their education by September 30, 2023.
- (4) Applicants who have completed 16 years of formal education in foreign countries by taking correspondence courses offered in Japan or are expected to complete the aforementioned by September 30, 2023.
- (5) Applicants who have completed formal education at foreign educational institutions in Japan which are positioned by the school system of such foreign countries as facilities that have curricula equivalent to universities (those who completed the education must be regarded to have completed 16 years of formal education in those countries) and specified as such institutions by the Minister of Education, Culture, Sports, Science and Technology or are expected to complete the education by September 30, 2023.
- (6) Applicants who have been awarded or are expected to be awarded by September 30, 2023 degrees equivalent to bachelor's degrees by completing the courses with the period for completion of three years or more at foreign universities or foreign schools (assessed by the foreign governments or accreditation organizations of such countries or specified as equivalent to such educational institutions by the Minister of Education, Culture, Sports, Science and Technology). (The completion of the courses includes completion of the courses in Japan through correspondence courses provided by foreign educational institutions and completion of formal education at foreign educational institutions in Japan, which are positioned by the school system of such foreign countries as facilities that have curricula equivalent to universities and specified as such institutions by the Minister of Education, Culture, Sports, Science and Technology as prescribed in the preceding item.)
- (7) Applicants who have completed specialist courses of technical colleges (only those courses which satisfy all the requirements set by the Minister of Education, Culture, Sports, Science and Technology including the period for completion being four years or more) after the date designated by the Minister of Education, Culture, Sports, Science and Technology or are expected to complete such courses by September 30, 2023.
- (8) Applicants who are designated by the Minister of Education, Culture, Sports, Science and Technology (under the Public Notice of the Ministry of Education No. 5 of 1953).
- (9) Applicants who were admitted to graduate schools under section 2, Article 102 of the School Education Act and are recognized by the Graduate School of Design to have appropriate academic abilities for receiving education provided in the graduate school.

- (10) Applicants who are recognized to have academic abilities equivalent to those who graduated from universities by means of a qualification screening conducted by the Graduate School of Design and are at least 22 years of age as of October 1, 2023.
- (11) Students who fall under any of the following and are recognized as having earned the credits specified by the Graduate School of Design with excellent grades.
- a. Applicants who have been enrolled for at least three years at the universities or colleges set forth in Article 83 of the School Education Act by September 30, 2023.
 - b. Applicants who have completed 15 years of formal education in foreign countries.
 - c. Applicants who have completed 15 years of formal education in foreign countries by taking correspondence courses offered in Japan.
 - d. Applicants who have completed formal education at foreign educational institutions in Japan which are positioned by the school system of such foreign countries as facilities that have curricula equivalent to universities (those who completed the education must be regarded to have completed 15 years of formal education in those countries) and specified as such institutions by the Minister of Education, Culture, Sports, Science and Technology.

III Admission by General Entrance Examination

1 Enrollment Period

April 1, 2023 (Spring Admission) or October 1, 2023 (Fall Admission)

*Select one of the above at the time of application. The enrollment period cannot be changed after applying.

2 Maximum Number of Enrolled Students

Department	Courses	Enrollment Quota
Department of Design	Strategic Design Course	Around 78
	Environmental Design Course	
	Human Life Design and Science Course	
	Design Futures Course	
	Media Design Course	
	Acoustic Design Course	

3 Application Requirements

Applicants who have fulfilled the requirements of “II Application Qualifications.”

For those who wish to enroll in April 2023, please refer to “1 April 2023 Admission” on page 5.

For those who wish to enroll in October 2023, please refer to “October 2023 Admission” on page 7.

4 Application Procedure

(1) Application period: Monday, August 1, 2022 to Thursday, August 4, 2022 (9 am to 4 pm, JST)

Applications are accepted from 9 am to 4 pm if you would like to submit your application in person. Applications submitted by mail must arrive no later than Thursday, August 4. Applications from within Japan should be sent by registered mail with “Application for Admission to the Master’s Program of Graduate School of Design” written in red on the front of the envelope. If you are applying from outside Japan, please send the application by EMS or other trackable means, and submit a copy of the mailing record or the tracking number by e-mail (refer to the (2) Mailing Address and Contact Information below). Please allow plenty of time for delivery, as it may take some time especially during the Covid-19 pandemic period. Please keep a copy of the submitted documents for your records before sending.

Furthermore, applicants who apply in accordance with the qualifications (9)-(11) will be screened in advance. The application period is from Monday, July 4 – Thursday, July 7, 2022 at 4 pm. If you send your application by mail, it must arrive by Thursday, July 7. Applicants will be notified of the results of the screening by Friday, July 29. Applicants who have passed the qualifications screening must follow the procedure for payment of the application fee as described on page 17, and submit proof of payment of the application fee by Thursday, August 4. The application documents will be

officially accepted upon receipt of the proof of payment of the application fee.

(2) Mailing Address and Contact Information

Student Affairs Division, Administrative Office of Design

Kyushu University

4-9-1 Shiobaru, Minamiku, Fukuoka, 815-8540, Japan

Telephone Number: +81 (0) 92-553-4587

Email Address: gkggakusei@jimukyushu-u.ac.jp

5 Application Documents

Application Documents	Notes
Proof of Payment of the Application Fee	Please submit proof of payment attached to Appendix 1 prescribed by this Graduate School of Design. For details, please refer to “IV-1 Application Fee and Payment Methods.” Applicants who apply in accordance with the qualifications (9)-(11) must pay the application fee after passing the preliminary screening and submit the payment proof separately.
Certificate of English Language Proficiency Tests	Score report for the TOEFL-iBT, or TOEFL-ITP organized by the School of Design, Kyushu University on May 14, 2022. For details on how to submit score reports, please refer to “IV-2 English Language Proficiency Tests (Submission of Score Reports).” *Applicants who have completed a bachelor’s degree and graduated from a university where English is the language of instruction are exempted from submitting a score report upon submission of an official Certificate of English as a Medium of Instruction issued by the university.
Application Form	Appendix 2 Please fill in the “Field Number” and “Name of Specialized Field” stated on “III 6 (2) Specialized Fields and Scopes of the Examination”. Neither changes in the desired course nor specialized field of examination are permitted after applying.
Examination Slip and Identification Slip	Appendix 3
Photographs	Photographs of the applicant’s face including the upper body, without headwear (except when used for medical or religious reasons), facing front, taken within three months prior to application, must be attached to the examination slip and identification slip(Appendix 3). The size of the photograph must be 4 cm long × 3 cm wide.
Certificate of (Expected) Graduation	This certificate should be prepared by the president or head of the

	graduate school of the university from which the applicant graduated. If the language is not Japanese or English, please attach an English or Japanese translation. Applicants who fall under (9) of “II Application Qualifications” are required to submit a certificate of enrollment. Applicants who fall under (10) of “II Application Qualifications” are excluded. Applicants who wish to enroll in October, 2023, are required to submit a certificate of expected graduation.
Certificate of Bachelor’s Degree or Certificate of Expected Completion	Applicants who fall under (2) of “II Application Qualifications” must submit a certificate issued by the National Institution for Academic Degrees and Quality Enhancement of Higher Education. However, applicants who expect to complete a postsecondary course at a junior college or specialist courses of colleges of technology must submit a certificate of expected completion and a certificate (issued by the head of the institution) of the plan to apply for the award of a degree/ diploma.
Transcript	Please submit an official transcript issued by the university you graduated from (copies are not acceptable). If the transcript is in a language other than Japanese or English, please provide an English or Japanese translation. If you are applying to be a transfer student, please submit the transcript for the institution you attended before transferring.
Research Proposal	Appendix 4 Please describe the details of research that you would like to conduct at the Graduate School of Design in 400 words on a single A4 page and you may not write on the back.
Self-Addressed Stamped Envelope for Examination Slip	Applicants residing in Japan are required to submit an envelope (23.5 cm long × 12 cm wide) with their name, address, and postal code with postal stamps equivalent to 344 yen attached. Applicants residing outside Japan are not required to submit the envelop.
Mailing Labels	Appendix 5 Please fill in your postal code, address, and name on the form provided by Graduate School of Design (for notification of acceptance and for sending documents for enrollment procedures).
Certificate of Residence (<i>Juminhyo-no-Utsushi</i>) or Photocopy of Passport	Non-Japanese applicants residing in Japan must submit a copy of Certificate of Residence (<i>Jyuminhyo-no-utsushi</i>) issued by their municipality that clearly indicates their status of residence, period of stay, and nationality. Applicants residing outside Japan must submit a copy of the identification page of their passport.

Application Form for Preliminary Screening of Application Qualifications	<p>Appendix 6</p> <p>Applicants who apply in accordance with (9)-(11) of “II Application Qualifications” are required to submit this form. Please attach academic papers/dissertation or other documents allowing confirmation of their content.</p>
--	--

Note: For documents written in languages other than Japanese or English, please attach a Japanese or English translation. Please submit original transcripts, certificates, and other documents (no photocopies). If any falsification is identified in the transcripts or other documents, admission will be revoked even after enrollment.

6 Admission Selection Method, etc.

Applicants will be selected based on comprehensive consideration of their English language proficiency, results of the written examination on specialized field, and interview performances.

The English language proficiency will be evaluated based on the applicants’ score for English language proficiency tests. For details, please refer to “IV-2 English Language Proficiency Tests (Submission of Score Reports).”

Written examination on specialized fields and interviews will be conducted in Japanese or English. Please select the language of choice in the application form.

(1) Examination Date and Format

Date	Format	Time (JST)
Friday, September 2, 2022	Written Examination on Specialized Fields	9:30 - 12:30
	Interview	14:00 - 19:00

(2) Specialized Fields and Scopes of the Examination

Applicants must take a written examination on one of the specialized fields listed in the table below for their desired course. They must also pay attention to the notes regarding interviews.

Sample questions of the written examination on specialized fields will be available on the website of the Graduate School of Design.

Strategic Design Course

Field Number	Specialized Field	Scope of the Examination
1	Strategic Design	Industrial Design, Product Design, Interior Design, Interaction Design, Media Contents Design, Design Management, Intellectual Property Law, Service Design, Societal Design, Inclusive Design, Sustainable Design

<Notes regarding interviews>

Screening will be conducted as follows.

a. Screening via presentations:

Applicants are required to make a presentation of up to 5 minutes per person with a poster of A1 size (paperboard or rolled paper) that summarizes the content of their research plan, including illustrations in an understandable manner.

b. Screening via oral examination:

Applicants will be screened by oral examination on academic skills related to their field of academic research, referring to the presentation content.

Environmental Design Course

Field Number	Specialized Field	Scope of the Examination
2	Architectural Engineering and Environmental Chemistry	Environmental Design, Environmental Chemistry, Environmental Engineering, Structural Engineering, Building Materials
3	Urban and Architectural Design	Environmental Design, Architectural Planning, Urban Planning, Architectural Environment Planning, Architecture and Building Construction, Architectural Design
4	Landscape Architecture	Environmental Design, Natural Environment Conservation, Landscape Ecology and Urban Environmental Design, Urban and Regional Landscape Design
5	Social and Cultural Studies on Human Environments	Environmental Design, Environmental Anthropology, Environmental Policy, Heritage Studies, Architectural History

<Notes regarding interviews>

Applicants for the Environmental Design Course who wish to present materials that include their works should bring them to the interview. The materials should be in the form of booklets or sheets that can be circulated.

Human Life Design and Science Course

Field Number	Specialized Field	Scope of the Examination
6	Human Life Design and Science	Human Life Science, Ergonomics, Environmental Physiology for Human Life, Kansei and Behavioral Science, Creative Science and Engineering, Human Mathematical Engineering, Design Cognition, Mechanics of Materials, Machine Functional Elements, Social System Design, Life-Scape Design, Communication Design, Industrial Design, Public Design, Interior Design, Advertising/ Public Relations, Creative Direction

<Notes regarding interviews>

During the interview, explain your motivation and research proposal within 3 minutes. After that you will be asked some questions. A video projector, screen, monitor speaker with amplifier, and VGA/HDMI cable will be prepared at the interview site, so those who will give a presentation using a computer slides are requested to bring their own computer, including any necessary adapter for connection. If you wish to present your works and portfolios, please bring them with you to the interview.

Design Futures Course

Field Number	Specialized Field	Scope of the Examination
7	Mathematics, Biology and Computer Science	Mathematics (Linear Algebra, Calculus, Statistics), Biology, Computer Science
8	Theory of Art and Design Practice	Theory of Art and Design Practice
9	Culture and Environment	Design Philosophy, Environment and Society, Design for Diversity and Inclusion, Diversity in Education, Cultural Policy/ Arts Management

<Notes regarding interviews>

Interviews will be conducted based on the submitted research proposal. It is possible to use computer slides, etc. to explain your research proposal, as well as your work(s). A video projector, screen, monitor speaker with amplifier, and VGA/HDMI cable will be prepared at the interview site, so those who will give a presentation using a computer are requested to bring their own computer, including any necessary adapter for connection.

Media Design Course

Field Number	Specialized Field	Scope of the Examination
10	Media Science	Visual Perception, Psychological Thinking, Color Science
11	Media Engineering	Image Information Processing, Image Analysis Technology, Web Informatics, Computer Graphics, Mechanics Design
12	Media Arts and Design	Arts, Graphic Design, Moving Image Design
13	Media Socio-Cultural Studies	Theatre Studies, Applied Linguistics with Multimedia, Theoretical Linguistics

<Notes regarding interviews>

If you wish to present your works, please bring them with you to the interview. A video projector, screen, monitor speaker with amplifier, and VGA/HDMI cable will be prepared at the interview site, so those who will give a presentation using a computer, are requested to bring their own computer, including any necessary adapter for connection.

Acoustic Design Course

Field Number	Specialized Field	Scope of the Examination
14	Auditory Psychology	Auditory Psychology, Auditory Physiology, Psychometrics
15	Acoustic Environment Assessments	Fundamentals of Acoustics, Psychometrics, Noise and Environmental Sound Assessment, Soundscape
16	Acoustic Engineering/ Signal Processing	Fundamental Acoustic Theory, Room Acoustics, Acoustical Signal Processing, Digital Signal Processing, Electro-Acoustic Transduction
17	Sound Culture	Sound Studies, Media Art, Music Theory and Analysis, History of Western Music, Cultural Studies of Music, Composition, History of Japanese Music

<Notes regarding interviews>

The interview of the Acoustic Design Course will be conducted after the presentation of the research proposal. A video projector, screen, monitor speaker with amplifier, and VGA/HDMI cable will be prepared at the interview site, so those who will give a presentation during the interview using a computer are requested to bring their own computer, including any necessary adapter for connection.

(3) Examination Venue

The examination will be held at Ohashi Campus, Kyushu University (4-9-1 Shiobaru, Minamiku, Fukuoka). The meeting place, time, and other information regarding the examination will be posted in the Multi-purpose Building of the Ohashi Campus, Kyushu University from Thursday, September 1, 2022.

7 Notes

- Applicants should contact their academic supervisor of choice before the start of the application period to thoroughly discuss the content of their research and other relevant matters. Please ascertain which Course the prospective academic supervisor belongs to.
- After the application procedures have been completed, the submitted documents cannot be changed or returned, and the application fee cannot be refunded. However, if you do not apply after paying the application fee, or if the application documents are not accepted, the paid application fee will be refunded.
- You must have your examination slip during the examination.
- Only graphite pencils, mechanical pencils (black), erasers, manual pencil sharpeners, and watches (with timekeeping functions only) may be used during the examination.
- Electronic devices such as cellphones, smartphones, wristwatch-style devices, electronic dictionaries, and IC recorders must be turned off with their alarm settings disabled and placed in your bag before entering the examination room.
- Please correctly fill in the “Mailing label for notification of acceptance” and “Mailing label for sending documents for entrance procedures” as these will be used as the mailing address for the respective documents.
- Incomplete applications will not be accepted.
- The time limit for access to examinations due to lateness is 30 minutes after the start of the examination. If you are late more than 30 minutes after the start of the examination for unavoidable reasons, please inform the examination invigilator.

8 Announcement of Acceptance

- (1) The results will be announced on the notice board of Ohashi Campus, Kyushu University (next to the Administration Office) around 10 am on Thursday, September 22, 2022, and successful applicants will be notified in writing.
- (2) The examinee numbers of successful applicants will also be announced on the Graduate School of Design website (URL: <https://www.design.kyushu-u.ac.jp/en/home/>) as a means of providing information, and the official announcement of acceptance will be made as described in (1) above. Please note that telephone inquiries regarding admission results will be declined.

IV Other information related to the entrance examination

1 Application Fee and Payment Methods

■Application Fee

JPY 30,000

■Payment Methods

Please pay the application fee by using one of the following methods (A), (B) or (C) on or after Monday, July 11, 2022. Payment must be made by the last date of the application period.

(A) Payments by Credit Card

- (1) Payment can be made through Visa, Master Card, JCB, American Express, Union Pay, and Alipay.
- (2) Credit card payment can be done directly on the website at <https://e-shiharai.net/english/>
- (3) For details of paying by credit card, refer to page 18.
- (4) At the website above, first select “Kyushu University (Graduate Schools)” in the School Selection page. Then select “Graduate School of Design” at the next page.

(B) Payments at Convenience Stores (available only in Japan)

- (1) Payment can be made at Seven-Eleven, Lawson, and Family Mart.
- (2) For details of paying at convenience stores, refer to the Application Guidelines in the Japanese version on page 14.

(C) Payments by Bank Transfer

Transfer the application fee to the following bank account. Fill in your desired course, code: **2DS** and your name in the box marked “name” on the bank transfer order form.

1. Transfer must be made in Japanese yen.
2. All necessary expenses for the bank/ telegraphic transfer shall be borne by the remitter.
3. Beneficiary:

Name	Kyushu University
Address	744 Motooka, Nishi-ku, Fukuoka 819-0395, Japan

4. Beneficiary's Bank Account:

Bank Name	SUMITOMO MITSUI BANKING CORPORATION
Branch Name	FUKUOKA BRANCH
Address	1-1-1 Hakataekimae, Hakata-ku, Fukuoka 812-0011, JAPAN
Account Type	Saving Account
Account Number	7119240
Swift Code	SMBCJPJT (it is essential for telegraphic remittance)

KYUSHU UNIVERSITY

How to make the Payment for the Application Fee by Credit Card, Union Pay, and Alipay.

24 hours a day, 365 days a year, you can pay anytime! Easy, Convenient and Simple!

You can pay the Application Fee by using Credit Card, Union Pay, and Alipay.

Online Transaction

Access

2 English Language Proficiency Tests (Submission of Score Reports)

(1) Please take the TOEFL-iBT in advance. Or please take the TOEFL ITP (May 14, 2022) organized by the School of Design, Kyushu University. Please note that a passport is required to take the TOEFL-iBT though, if you do not have a passport, other IDs may be acceptable. So please check the details of the Identification Requirements for the test by yourself.

(2) Please submit score reports for the tests as follows.

<TOEFL-iBT>

Please complete the procedure for the U.S. ETS so that the Official Score Report is delivered to the Student Affairs Division, Administrative Office of Design, Kyushu University by the deadline of the application period. In doing so, please use the following DI (Institute Code) code and Department code.

DI code: C984 Department code: 15 Fine Arts, Art, Design

< TOEFL ITP organized by the School of Design, Kyushu University (May 14, 2022)>

Your score will be delivered directly from ETS Japan to the Student Affairs Division, Administrative Office of Design, Kyushu University.

Therefore, there is nothing for applicants to submit.

(3) Notes

- The scores are only valid for the test taken within two years from the date of the entrance examinations.
- Please fill in your score and test date on the application form.
- You may submit both the TOEFL-iBT score and the TOEFL ITP score (held on Saturday, May 14, 2022) organized by our department.
- The submitted TOEFL-iBT score certificate (original) will not be returned. Please note that applicants who have submitted the original TOEFL-iBT score certificate for the Admission by Personal Merits (October 2022 Admission) or Personal Merits (April 2023 Admission) do not need to submit the original TOEFL-iBT score certificate again when applying for the General Entrance Examination (April/October 2023 Admission).
- The TOEFL ITP (held on Saturday, May 14, 2022) score report (for the examinee) will be sent to the examinees by post. The score report (for the organizer) will be managed by the Student Affairs Division, Administrative Office of Design, Kyushu University. The score will be used as an English Language Proficient Requirements when the applicant applies for the Admission by Personal Merits (October 2022 admission), Personal Merits (April 2023 admission), or the General Entrance Examination (April and October 2023 admission).
- If any falsification is found in the submitted score report, admission will be revoked even after enrollment.

3 TOEFL-ITP organized by the School of Design, Kyushu University

(1) How to Apply and Application Period

To take the test, prior registration and a separate fee are required.

Those who wish to take the test must fill out the attached form (TOEFL ITP Application Form).

Please attach the completed application form and email to (graduate@design.kyushu-u.ac.jp).

The application period is from Monday, April 11 to Monday, April 18, 2022.

After the application confirmation, email you of the test fee, payment method, and other details about TOEFL ITP.

(2) Examination Date and Format

V Enrollment

1 Enrollment Procedures

Documents related to the enrollment procedure will be sent to successful applicants in late February 2023 to those who are admitted through April 2023 Admission and in late August 2023 to those who are admitted through October 2023 Admission.

2 Fees Required at the Time of Enrollment

Enrollment Fee	JPY 282,000 (subject to change)
Tuition Fee (per each semester)	JPY 267,900 (JPY 535,800 per annum, subject to change)

Note: The tuition fee may be liable to change during the period in which the student is enrolled in the Graduate School of Design. In this case, the revised amount will be applied to the tuition fee at the time of revision.

3 Extension of the Period of Study

The Graduate School of Design allows students with jobs or other such circumstances who request that they complete the program according to a predetermined schedule over an extended period beyond the normal period of the curriculum to do so according to the stipulations of the Graduate School of Design.

If you are approved to extend the period of study, the amount of tuition to be paid per year will be the amount of tuition for the normal period of the curriculum (2 years) divided by the number of years (3 or 4 years) that the student is allowed to take the course as planned until the completion of the course.
